

AT, LUNGS, LIVER & BLOOK In the wonderful medicine lo which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Naare above directed for relief, the discoverer beheves he has combined in harmony more of Nature's sovereign curative properties, which God
has instilled into the vegetable kingdom for heading the sick, than were ever before combined in
one medicine. The evidence of this fact is found in
the great variety of most obstinate diseases which
it has been found to conquer. In the cure of
Bronchitis, Severe Coughs, and the early
stages of Consumption, it has astonished the
medical faculty, and eminent physicians pronounce it the greatest medical discovery of the
age. While it cures the severest Coughs, it
strengthens the system and purifies the
blood. By its great and therough blood-purifying properties, it cures all Humors, from the
worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial disease, Mineral
Poisons, and their effects, are eradicated, and
vigorous health and a sound constitution established. Erystpelas, Sali-rheum, Fever
Sores, Scaly or Rough Skin, in short, all
the numerous diseases aussed by bad blood, are
conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Elitarismens," In many cases of "Liver Complaint?" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, is it effects perfect cures, leaving the liver strengthened and healthy.

DR. SAGE'S CATARRH REMEDY. It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected masal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrial frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedles to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it.
